

SKILLS SUMMARY

Languages

Java, C#, Python, SQL,
JavaScript, TypeScript

Frontend

Angular, React, Bootstrap,
Tailwind, jQuery, Kendo

Backend

Node.js, Express, Firebase,
MongoDB, RESTful API

Tools & Technologies

Postman, SonarQube, Git,
Jira, SQL Server, Jasmine

KEY PROJECTS

Wonderful World Game | Object Oriented Programming Course

Sep – Dec 2024

- Utilized MVC architecture with JavaFX and the Maven framework to build a 2D magical-room adventure game.
- Implemented game menu, world exploration, turn-based combat, inventory, and portal for better user experience.

Data Analysis Project | Personal

Aug – Sep 2024

- Developed a data analysis workflow using Kaggle API for data acquisition, and analyzed data with pandas and SQL.

Melissa's Portfolio

Jul – Aug 2024

- Built a personal portfolio website using Next.js, Framer Motion, Tailwind CSS, and EmailJS.

SmileEstate | Personal

Jun – Aug 2024

- Developed a MERN stack real estate web application, facilitating users in renting and selling properties.
- Integrated a real-time chat functionality to enhance user communication.

Dronify | Project 2 Course

Apr – May 2024

- Developed an application using Tailwind, EJS, Node.js, Express, and MongoDB for autonomous drone services, including package delivery, drone sharing, and roadside assistance for EVs.
- Collaborated with teammates using Agile methodology, rotating roles to enhance skills in development principles.

Pikachu Single-user Dungeon Game | Programming Methods Course

Mar – Apr 2024

- Partnered with a teammate using Python to design and develop a text-based single-user dungeon game.
- Designed the game flow with flowcharts and validated functionality through comprehensive unit tests.

WORKING EXPERIENCE

Full Stack Software Developer Co-op | Wärtsilä Canada | Vancouver, Canada

Dec 2024 – Aug 2025

- Implemented new requirements and fixed bugs by assessing Jira tasks, completed average 5 features or fixes per week.
- Collaborated with the QA team to develop and execute end-to-end test plans and scenarios for feature validation.
- Developed Jasmine unit tests for functions and components; optimized and refactored existing feature code for performance and scalability using SonarQube insights and personal analysis.
- Participated in daily Scrum and backlog refinement meetings, contributed to task implementation discussions, collaborated with BA/QA teams to ensure high-quality delivery.

Financial Analyst/Advisor | China Minsheng Banking Corp., Ltd | Dalian, China

Jul 2016 – Jul 2021

- Analyzed financial products and investment data using statistical methods to identify investment opportunities
- Delivered data-driven advice using databases, monitoring the market achieving 15% average client portfolio growth.

Branch Lobby Manager | China Minsheng Banking Corp., Ltd | Dalian, China

Jan 2014 – Jun 2016

- Implemented data-driven strategies to optimize operations, resulting in a 30% reduction in customer wait time.
- Spearheaded a data system using analytics to personalize marketing efforts, increasing client retention rates by 25%.

EDUCATION

Computer Systems Technology Diploma

Jan 2024 – Present

British Columbia Institute of Technology | Vancouver, Canada

Bachelor of Applied Chemistry

Sep 2009 – Jun 2013

Liaoning Normal University | Dalian, China
